PROFILE

Computer Science undergraduate with strong hands-on experience in backend and full-stack application development. Skilled in building secure RESTful APIs, authentication systems, and database-driven applications. Actively preparing for software engineering roles with a focus on problem-solving, data structures, and scalable system design.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript
- **Backend Development:** Node.js, Express.js, REST APIs, JWT Authentication
- **Frontend Technologies:** HTML, CSS, React (Basics)
- **Databases:** MongoDB, SQL (Fundamentals)
- **Tools & Platforms:** Git, GitHub

PROJECTS

Smart Placement Readiness Platform

Backend / Full-Stack Project

- Designed and developed a backend-driven platform to manage student placement readiness and company hiring workflows.
- Implemented secure role-based authentication for students, companies, and administrators using JWT.
- Built OTP-based email verification to validate college and company email domains during profile verification.
- Designed and implemented MongoDB schemas for users, students, companies, applications, and OTP records.
- Developed logic to compute student profile scores based on academic data, skills, and profile completion.
- Enforced eligibility-based job applications, allowing students to apply only to companies matching their profile criteria.
- Implemented admin controls to verify profiles, monitor activity, and block or unblock users.
- Focused on clean API design, validation, error handling, and scalable backend architecture.

Expense Tracker Application

Android Development

- Developed an offline Android application to track daily expenses and manage personal budgets.
- Implemented functionality to set an initial budget and dynamically update remaining balance after each transaction.
- Enabled users to add and delete expense records with automatic recalculation of totals.
- Applied core Android concepts including activity navigation, input validation, and local data persistence.

EDUCATION

VIT-AP University

B.Tech – Computer Science and Engineering

GPA: 8.56 / 10.0

Sep 2023 – Mar 2027

Amaravati, Andhra Pradesh

Sri Chaitanya College

Intermediate

Grade: 95.1%

Jun 2021 – Apr 2023

Vijayawada, Andhra Pradesh

CERTIFICATIONS

- Android App Development – IMARTICUS

ADDITIONAL INFORMATION

- **Languages:** English, Telugu
- **Interests:** Backend Development, Problem Solving, Learning New Technologies
